

CELEBRATING BLACK HISTORY MONTH

(Mrs. BROOKS of Indiana asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BROOKS of Indiana. Mr. Speaker, I rise today to celebrate Black History Month and the remarkable contributions of Black Hoosiers to our State and country:

Take, for instance, Madam C.J. Walker, a visionary leader who rose from being orphaned at age 7 to becoming an accomplished entrepreneur of hair care products and a prolific philanthropist in the Indianapolis community. She was also America's first self-made female millionaire;

Or Emma Christy, Indianapolis' first female police officer, who patrolled the city's streets with the department's all-female unit, the largest in the world in 1921;

Or the 1955 Crispus Attucks State Championship basketball team. It was the first all-Black team to win a State title.

These are just some of the many African American Hoosiers who have helped shape Indiana's history, enriched our community, and transformed our Nation.

As this month draws to a close, let us continue to honor and recognize all of the trailblazing Black Hoosiers who have contributed so much. We recognize that their great work has paved the path we walk today and leaves lasting legacies in their wake.

CARBON CAPTURE ACT

(Mr. TIPTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIPTON. Mr. Speaker, the United States is blessed with nearly 30 percent of the world's coal reserves—more than twice that of the nearest coal reserve country, Russia, and three times as much as China.

Colorado is America's 10th leading coal producer. In Colorado's Third Congressional District, mines in communities like Craig and Delta provide critical jobs and tax revenues as they responsibly produce reliable, affordable electricity on which countless Americans rely.

One thing is certain: the people who work in Colorado's mines and coal-fired power plants take great pride in their communities and the natural environment. They want to develop the land's abundant resources as responsibly as possible with as small a footprint as possible.

I do not support the President's Clean Power Plan and have voted to stop this onerous Federal overreach multiple times. However, as industry continuously searches for safer and more efficient ways to produce energy, we will need to incentivize the improvement of technology. Passing the

Carbon Capture Act will help facilitate that.

Our economic, national, and energy security are all served through ensuring that the ability to use our natural resources responsibly to provide abundant, affordable energy continues.

EATING DISORDERS AWARENESS

(Mrs. ELLMERS of North Carolina asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. ELLMERS of North Carolina. Mr. Speaker, I rise today in recognition of National Eating Disorders Awareness Week.

This annual campaign sheds light on a disease that affects nearly 30 million Americans and has the highest mortality rate of any mental illness. While recovery is certainly possible, early detection and intervention is key. Unfortunately, many people are unfamiliar with the signs typically associated with an eating disorder.

This is why I introduced a bipartisan bill with several of my female colleagues, H.R. 4153, the Educating to Prevent Eating Disorders Act. It would create a pilot program in middle schools to begin educating school counselors, teachers, and nurses about the symptoms of eating disorders.

The facts are clear: education and early detection save lives. This legislation, H.R. 4153, would allow for us to provide both. We have a responsibility to improve the public's understanding of eating disorders so that we can prevent this mental illness.

PROVIDING FOR CONSIDERATION OF H.R. 2406, SPORTSMEN'S HERITAGE AND RECREATIONAL ENHANCEMENT ACT OF 2015

The SPEAKER pro tempore. The gentleman from Washington is recognized for 1 hour.

Mr. NEWHOUSE. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from New York (Ms. SLAUGHTER), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. NEWHOUSE. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. NEWHOUSE. Mr. Speaker, on Tuesday, the Rules Committee met and reported a rule, House Resolution 619, providing for consideration of H.R. 2406, the SHARE Act, also commonly known as the sportsmen's bill.

The rule provides for consideration of H.R. 2406 under a structured rule, with 17 amendments made in order that are roughly evenly split between Democratic and Republican members of this legislative body.

Mr. Speaker, the SHARE Act is an important bipartisan package of proposals that will promote greater opportunities for hunting, fishing, and outdoor recreation, as well as safeguard the rights of hunters, anglers, and recreational shooters.

While similar bills have passed the House in the past two Congresses, the Senate has failed to adopt them, making this legislation long overdue. This is especially true when considering the current administration's ongoing assault on the Second Amendment, as well as their restrictions on access to Federal land. This includes restricting hunting and shooting on Federal lands,
